DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of group I invention, claims 29-33 in Paper filed July 15, 2003 is acknowledged. The traversal is on the ground(s) that the alternate process would not result in a "gallium nitride based semiconductor material" and cannot be made by another and materially different process. This is not found persuasive because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
2. The requirement is still deemed proper and is therefore made FINAL.

Drawings

3. Figures 1 and 2 should be designated by a legend such as -Prior Art—because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 13-28 allowed.
5. The following is an examiner's statement of reasons for allowance: the prior art does not anticipate nor render obviousness as to forming a layer in the trench before forming the second gallium nitride layer.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Quayle Action

7. This application is in condition for allowance except for the following formal matters:
8. Canceling the non-elected invention and correcting the prior art drawings.
9. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
10. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
